ActiVit Multivitamins are formulated by industry experts in nutrition AND fitness and contain essential nutrients adults need every day for optimal health, PLUS metabolism-boosting ingredients to help you reach your fitness goals faster.*

DID YOU KNOW?

Many multivitamins only contain the Daily Value (DV) of nutrients, which is the minimum amount recommended for basic health and may in fact be less than what active adults need. The balanced nutrient content in ActiVit Multivitamins exceeds the DV for specific nutrients to give your body enough of what it truly needs to help maintain optimal health and fitness levels.

WARNING: Consult with a healthcare professional if pregnant, breast feeding, providing to a child, or if you have any other unique or special needs. Keep out of reach of children.
